## BACHELOR OF SCIENCE IN **AUDITING AND FORENSICS ACCOUNTING**

**NEW  
PROGRAM**

### ADMISSION CRITERIA

- Recognized general education diploma or its equivalent
- Students joining MCBS must go through an English placement test to determine the appropriate English level
- Students presenting a valid score of 5-5.5 in IELTS or 65-79 in internet based TOEFL (iBT) are exempted from the English program
- Students will need to go through Mathematics and IT placements tests to determine their levels of proficiency in these subjects as they are part of the GFP or possible exemption

### PROGRAM OVERVIEW

The Bachelor of Science in Auditing and Forensic Accounting program is designed to equip students with a strong foundation in accounting principles, auditing techniques, and investigative skills necessary for identifying and preventing financial fraud, as well as ensuring accurate financial reporting.

This program combines the fields of accounting, auditing, and forensic investigation to produce graduates who are well-prepared to excel in the ever-evolving world of finance, law enforcement, and corporate governance. It consists of a mix of accounting, auditing, investigative, and general business courses. The curriculum is designed to provide students with a well-rounded education that balances theoretical knowledge with practical application. The program provides practical training in the use of forensic accounting tools and techniques for investigating financial discrepancies and fraud cases.

EXCELLENCE IN HIGHER EDUCATION

## PROGRAM STRUCTURE

**Duration:** Bachelor's degree requires about 8 semesters or 4 years

**Program delivery:** 12-15 credits per normal semester and 6 credits per summer semester

**Internship:** Placement on a 3-month internship

**Courses:** Apart from courses closely related to the program, students take general education courses.
